Granite Comparator Stands

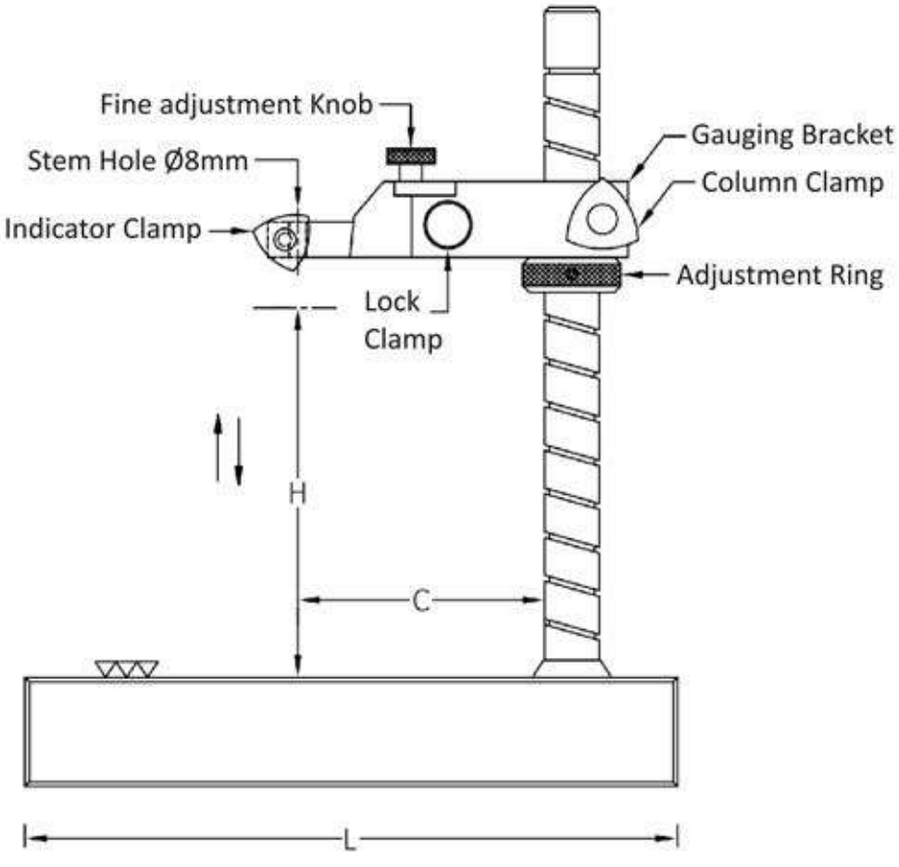

- Dial indicator is not included with each model

Granite
Comparator Stands

Dial comparator stands are designed for comparison measurement of size using a dial indicator, as it is most reliable instrument. We manufacture one of the finest quality of granite and cast iron comparator stands which are widely known for its quality and workmanship.

We have well equipped NABL accredited calibration laboratory.

- Granite comparator stands are made from selected black granite.
- Precision lapped for feather finish and fine accuracy.
- Corrosion resistant and non magnetic base.
- Heavy duty vertical column and gauging bracket.
- Accepts all electronic and standard gauges.
- Calibration certificate is provided with each comparator stand.
