CODE U2626

UNIQUE WEDGE CLAMP & ACCESORIES

COMPATIBLE WITH U2424 / U2424 COMPACT / MACHINE TABLE

FEATURES

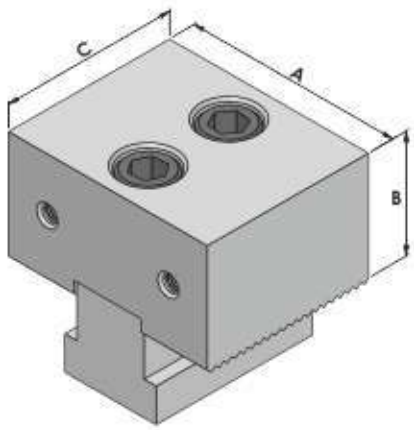

- Most rigid low profile clamps available in the market right now.
- This vise is not limited to the maximum length of the base slide, as is the case with conventional slide based vises.
- Can be accessorized with different jaws, using the threads on the moving faces, based upon the application.
- Even the most challenging workpieces, either in size or in shape can be machined easily.
- Increases productivity by maximizing the machine table capacity, at the same time increases tool accessibility.
- Clamp body & accessories are of high quality alloy steel, case hardened to HRC 60 ± 2.

U2626 SW (Single Wedge)

A	B	C	C Optimum	C Full	Weight (Kgs.)
